DIRECTOR OF CENTRAL INTELLIGENCE  
Intelligence Producers Council  
Washington, D.C. 20505

IPC 2000/89  
14 June 1989

25X1

25X1

NOTE FOR: Chairman, Intelligence Producers Council

25X1

FROM:

STAT

Chief, Intelligence Producers Council Staff

SUBJECT: External Research Contract Report for FY 1988

25X1

1. Attached for your information is a copy of our recently automated and revitalized External Research Contract Report for FY 1988. Volume II is provided to you and the members on a one-time basis in order to give you some idea of the dimensions of the program. [redacted]

25X1

25X1

2. I have also included an Eyes Only matrix depicting the total dollars by organization spent/allocated for external research. Distribution of this matrix has been limited to you, General Heinz, and myself. Additionally, a copy of the DDI external research program is attached. I have also given a copy of this to [redacted] since MPSS provides us these data. [redacted]

25X1

3. Each IPC member organization has been provided a unique listing of their respective programs. No others have received information on the total program except you, General Heinz, and myself; moreover, the staff has been instructed to treat this information as strictly proprietary. [redacted]

25X1

4. You will note that we have no data on the Air Force. For various reasons, that service has declined to participate since the inception of the program in 1983. However, I have talked to Norm Wood, and I anticipate that the Air Force will become a player soon. [redacted]

25X1

5. Since the program is now fully operational we will start analyzing its content, identify areas of possible duplication, etc., and alert the members as appropriate. We will not perform an IG role, but will instead provide the Council and the production community with a service of common concern in sharing information and in identifying incongruities, possible overlaps, and potential shortfalls. [redacted]

6. Finally, these reports represent a major breakthrough for us. Never before have we been able to review the external research program in such detail and with a capability to do something about it, if required. I believe we have a tool that will be invaluable as our budgets and resources get tighter and come under close scrutiny. [redacted]
